

PROFILE

Facts before opinions - Dialog before the conclusion.
UX Professional, passionate fairytale illustrator
& sex workers rights supporter. Emphatic interviewer
and a great entity to discuss the dark matter of life with.
Feminist, activist and visual artist.

I truly believe in equity and equality between people.
Using huge part of my brain capacity to make sure that
"we are doing things right" is one of my main attributes.
I value honesty, friendship and communication, and I will
always fight for people and good ideas as valourously
as a true Klingon.

I believe that research & communication makes a perfect
combination for an endless process of improving things.
So take my hand and let's find the new things to improve!
